

PESTICIDE NOTIFICATION PLAN

Plan Revised 17/02/2016

Next Review 16/07/2021

PESTICIDE USE NOTIFICATION PLAN

1. INTRODUCTION

This pesticide use notification plan has been prepared in accordance with the requirements of the Pesticides Regulation 1995 (the Regulation). The plan sets out how Griffith City Council will notify members of the community of pesticide applications it makes or allows to be made to public places that it owns or controls.

The Plan describes:

- What public places are covered by the plan
- Who regularly uses these public places and an estimate of the level of usage
- How and when Council will provide the community with information about its pesticide applications in public places (i.e. what notification arrangements will be used)
- How the community can access this plan and get more information about Council's notification arrangements
- How future reviews of the plan will be conducted
- Contact details for anyone wishing to discuss this plan with Council

This plan forms a component of Council's integrated pest management policy.

This policy states that Council only uses pesticides in public places when necessary to eliminate noxious weeds, to protect public property from pest damage and to protect the users of public places from nuisance or danger.

The majority of pesticide use consists of applying herbicides for weed control and applying insecticides to manage certain insect pests.

Frequency of programmed applications range from 6 – 8 times per year for sports fields, 2 – 5 times per year for parks and gardens and twice yearly for public thoroughfares.

Bait insecticides are used for termite and ant control to protect structures and public safety wherever this is considered an effective solution.

Other pesticides used include fungicides, rodenticides, bird baits and large vertebrate baits.

Further information on Council's pesticide use can be obtained by calling the Noxious Weeds Inspector on 0428 629 456 or by visiting the website www.griffith.com

2. PUBLIC PLACES COVERED BY THIS PLAN

Griffith City Council proposes to use or allow the use of pesticides in the following categories of outdoor public places that it owns or controls in the Griffith City Council area:

- public gardens
- parks
- playgrounds
- picnic areas
- sporting fields and ovals
- public land owned or controlled by the Griffith City Council, including:
 - road verges and reserves
 - laneways and pathways
 - road, rail, utility or other easements accessible to the public
 - drains
 - other sporting facilities (specify)
 - camping grounds
 - commons
 - other public places (specify)

Although not required by the Regulation, this notification plan will also provide information on how notice will be provided to the community of pesticide use in the interiors of the following Griffith City Council buildings or throughout the listed facilities:

Griffith City Council's estimate of the level of community use, regular user groups and types of pesticide use in each of these categories of public places is summarised in the following table.

Public places	Regular user groups	Level of use of public place	Type of pesticide use
Public parks & gardens	<ul style="list-style-type: none"> • Children and young families • Elderly people • General recreational users (e.g. joggers, dog walkers, picnickers) 	Very high (frequent use by multiple users, with short medium length stays)	<ul style="list-style-type: none"> • Spot herbicides • Spot insecticides • Broadscale selective herbicides • Broadscale non-selective herbicides • Broadscale insecticides • Fungicide (usually garden beds) • Spray termiticides, ant control • Bait termiticides, ant control • Bait bird control

Public places	Regular user groups	Level of use of public place	Type of pesticide use
Picnic areas	<ul style="list-style-type: none"> • Families • Other social groups (e.g. ethnic, religious, clubs) 	High (particularly on weekends, public holidays and school holidays)	<ul style="list-style-type: none"> • Spot herbicides • Spot insecticides • Bait rodenticides • Fungicide (usually on garden beds) • Spray termiticides • Spray ant control • Bait termiticides • Bait ant control • Bait bird control
Playgrounds	<ul style="list-style-type: none"> • Children • Young families 	High	<ul style="list-style-type: none"> • Spot herbicides • Spot insecticides • Spray ant control • Bait ant control
Sporting fields and ovals	<ul style="list-style-type: none"> • Sporting clubs and associations • School sports groups • General recreational users (e.g. joggers, dog walkers) 	High	<ul style="list-style-type: none"> • Spot herbicides • Spot insecticides • Broadscale selective herbicides • Broadscale non-selective herbicides • Broadscale insecticides • Spray or bait termiticides on facilities • Rodenticides near facilities
Road verges and reserves	<ul style="list-style-type: none"> • Local residents or visitors walking or driving on the road 	Low for rural roads Medium to high for urban roads	<ul style="list-style-type: none"> • Spot herbicides • Broadscale non-selective herbicides
Laneways and pathways	<ul style="list-style-type: none"> • Local residents • People who work in the area 	Medium to high	<ul style="list-style-type: none"> • Spot herbicides • Broadscale non-selective herbicides
Easements accessible to the public (e.g. road, rail, water, sewer, electricity)	<ul style="list-style-type: none"> • Local residents • People who work in the area 	Low to medium	<ul style="list-style-type: none"> • Spot herbicides • Broadscale non-selective herbicides
Drains	<ul style="list-style-type: none"> • Local residents living adjacent to a drain • Local residents or visitors who walk or drive past a drain 	Low to medium	<ul style="list-style-type: none"> • Spot herbicides • Broadscale non-selective herbicides
Camping grounds	<ul style="list-style-type: none"> • Local residents • Campers • Backpackers • Visitors 	Medium to high depending on season (holiday times)	<ul style="list-style-type: none"> • Spot herbicides • Broadscale non-selective herbicides

Public places	Regular user groups	Level of use of public place	Type of pesticide use
Commons	<ul style="list-style-type: none"> General recreational users (e.g. joggers, dog walkers) 	Medium	<ul style="list-style-type: none"> Spot herbicides Broadscale non-selective herbicides
Crown land	<ul style="list-style-type: none"> General recreational users (e.g. joggers, dog walkers) 	Medium	<ul style="list-style-type: none"> Spot herbicides Broadscale non-selective herbicides
Grounds of Government schools Kindergardens Pre-schools	<ul style="list-style-type: none"> Students, teachers, parents Visitors to the facility 	High	<ul style="list-style-type: none"> Spot herbicides Spot insecticides
Interiors of public buildings Library	<ul style="list-style-type: none"> Library users (including young children, school groups and the elderly) 	High	<ul style="list-style-type: none"> Spot insecticides Bait rodenticides Spray termiticides Spray ant control Bait termiticides Bait ant control Bait bird control
Swimming pool buildings and grounds	<ul style="list-style-type: none"> (including young children, school groups and the elderly) Young children and their carers (child facilities) Parent groups Play groups 	High	<ul style="list-style-type: none"> Spot herbicides Spot insecticides

2a PUBLIC PLACES COVERED BY THIS PLAN

FOX BAITING PROGRAMS

Crown Land Council Reserves Lake Wyangan	<ul style="list-style-type: none"> Local residents Campers Backpackers Visitors General recreational Users (e.g. joggers, dog walkers) 	Medium to High	<ul style="list-style-type: none"> 1080 Fox Bait
---	--	-----------------------	---

PUBLIC NOTIFICATION FOR – 1080 USAGE

- Maps of control area available to public
- Bait locations to be recorded on maps with GPS coordinates
- Pesticide usage form (Record the number of baits)
- Tether baits to ground and cover with earth

- Layout baits for no more than 10 days at a time, pick up remaining baits after program finished
- Advertise through the local newspaper forth-coming bait programs
- All requirements within the Pest Control Order (PCO) for foxes will be followed
- Place signage around the location of baiting programs with contact numbers and date of program commencement

3 NOTIFICATION ARRANGEMENTS

This section of the plan describes how and when Griffith City Council will provide notice of pesticide use in public places, including special measures for sensitive places that are adjacent to public places, arrangements for emergency pesticide applications and circumstances where notice will not be given.

These notification requirements are based on Griffith City Council's, assessment that:

- The level of usage of public places where pesticides may be used
- The extent to which members of the public who are most likely to be sensitive to pesticides (e.g. young children, sick, pregnant and elderly people) and are likely to use these areas regularly
- The extent to which activities generally undertaken in these areas could lead to some direct contact with pesticides (such as picnic areas and where food is consumed; sporting or other recreational activities that result in contact with the ground)
- Type of pesticide used

Notice of pesticide use will be provided by a combination of:

- Information on Council's website (which will describe programmed, reactive and emergency pesticide use in public places) and will be published in rate notices:
- Letters
- Max and email
- Letterbox drops
- Door knocking
- Phone contact

Council will also allow persons and organisations to nominate to have their details placed on a central register which would allow them to be notified of certain types of pesticide uses in particular places, as described in this section of the plan.

Council uses small quantities of some pesticides that are widely available in retail outlets and ordinarily used for domestic purposes (including home gardening). Council does not intend to provide notice for such pesticide applications other than by way of this description in this plan (or general information on Council's website). This will apply to minor control of indoor and outdoor insect pests using baits or aerosol spray cans and spot weed control using wand or hand held spray bottle.

How and when notice of pesticide use will be provided

a) Outdoor recreation areas

The notification arrangements described below will apply to the following public place categories owned or controlled by the Griffith City Council within the local government area.

- **Playgrounds**
- **Picnic areas**
- **Sporting fields and ovals**

In these public places, signs will be provided to the general community near the application area or main entrance at least **48 hrs prior** to application and remain for at least **48 hrs afterwards** for the following pesticide uses:

- Broadscale selective herbicides
- Broadscale non-selective herbicides
- Broadscale insecticides
- Fungicides (on relevant garden beds)
- Spray termiticides and ant control
- Bait termiticides (where part of an ongoing program, first use of pesticide only)
- Bait bird control (where part of an ongoing program, first use of pesticide only)
- Bait rodenticides (where part of an ongoing program, first use of pesticide only)

Where any of the above pesticide uses occur adjacent to sensitive places (see definition of '**sensitive places**', under subsection e) special measures for sensitive places) the occupier will be provided with **48 hrs** prior targeted notice by phone, mail or letterbox drop (whichever is the most practicable).

For **playgrounds and picnic areas** only, prior notice will be extended to **7 days** by placing signs for all of the above pesticide uses. For these areas only, signs will be placed for at least **48 hrs** after spot herbicide or insecticide use or placement of ant control baits.

For **sporting fields, ovals and related sporting facilities**, sporting groups and occupiers of adjacent sensitive places who register interest with Council can also have a notice of the above pesticide uses faxed or emailed at least **48 hrs prior** to application.

Information will be available to the general community on Council's website about the forward program for the above applications (**updated every three months**), and on the following pesticide uses in outdoor recreation areas:

- Spot herbicides
- Spot insecticides
- Bait ant control

b) outdoor public thoroughfares and certain easements accessible to the public

The notification arrangements described below will apply to the following categories of public place owned or controlled by the Griffith City Council.

- Laneways and pathways

- Road shoulders, verges, road reserves and footpaths
- Road, sewer and electricity easements accessible to the public
- Drains

In these public places, information on the forward program for broadscale herbicide will be posted on the Council's website every **3 months**. For **drains** only, information on the forward program for use of herbicides will also be included in Council's regular **box advertisements in local newspapers every three months**. A letter box drop of adjacent properties will occur at least five days before the expected date or dates of broadscale herbicide application for all of the above pesticide uses.

Information on the programmed and reactive spot use of herbicides will also be posted on the Council's website every three months. Where programmed spot herbicide applications occur on outdoor public thoroughfares and the above easements, adjacent to sensitive places, and/or for parties that register interest with Council, prior notice by mail or letterbox drop will be provided at least **5 days** beforehand.

Notice will not be given where occupiers of properties adjacent to Council public places use pesticides on parts of these public places near properties.

c) Certain Council buildings

For pesticide use in Council chambers, Council owned libraries, community halls, theatres, Information centres and child care facilities that are owned or controlled by Council, signs will be provided near the application area or main entrance at least **48 hrs prior** to application and remain for at **least 48 hrs afterwards** for the following pesticide uses:

- Spot use of insecticides
- Bait rodenticides
- Spray termiticides
- Spray ant control

Information for the general community will be posted on Council's website **every 3 months** about the above applications and on the following pesticide uses in the above Council buildings:

- Bait termiticides
- Bait ant control
- Bait bird control

In addition, **5 days prior notice** of all programmed pesticide use in Council childcare facilities will be given to operators of the facilities.

d) Sensitive places

Special measures for sensitive places

Clause 18(1) of the *Pesticides Regulation* defines a sensitive place to be any:

- School or pre-school
- Kindergarten
- Childcare centre
- Hospital
- Community health centre
- Nursing home
- Place declared to be a sensitive place by the Environment Protection Authority (now a part of the Department of Environment and Conservation).

Special notification measures for programmed pesticide use in outdoor places adjacent to sensitive places for each category of public places have already been noted.

For non-emergency reactive pesticide use in outdoor public places next to sensitive places, Council will provide concurrent notice shortly before use to the occupier by phone, door-knock or letterbox drop, depending on what is practicable.

If a pesticide must be used to deal with an emergency in an outdoor public place that is adjacent to a sensitive place, Council will organise a door-knock in that sensitive place, preferably at least **30 minutes before**, so people are aware that a pesticide is about to be used to deal with a dangerous pest infestation.

e) Emergency pesticide applications

In cases where emergency pesticide applications in public places are required to deal with biting or dangerous pests such as wasps, bees, venomous spiders, fleas, bird mites or rodents (that pose an immediate health hazard), Council will, where possible, provide notice by posting signs nearby at the time of the application.

If this is not possible, Council will provide information via its Council information line, or by request to the person applying the pesticide.

f) Pesticide contractors and lessees of public places

Where Council uses contractors to apply pesticides on its behalf, Council will ensure that notification is made in accordance with the notification requirements of this plan.

Where persons or organisations hold an existing lease on Council land that remains a public place and if they use pesticides in this area, Council will still require notification in accordance with the requirements of this plan.

4) WHAT INFORMATION WILL BE PROVIDED

In accordance with clause 20(1)(H) of the *Pesticides Regulation*, notice of pesticides uses will include the following information:

- the full product name of the pesticide to be used, and
- the purpose of the use, clearly setting out what pest or pests are being treated, and
- the proposed date/s or date range of the pesticide use
- the places where the pesticide is to be used, and

- contact telephone number and email address of the Council officer who people can contact to discuss the notice, and
- any warnings regarding re-entry to or use of the place, if specified on the pesticide product label or the APVMA¹ permit.

Signs will be of a standardised design that will be easily recognisable to the public and workers

As already noted, Council's website will have a dedicated area that describes its programmed, reactive and, if practicable, emergency pesticide use in public places with a link to this notification plan. The relevant website address will be published in rate notices and by regular inclusions in Council's regular weekly block newspaper advertisement in local newspapers.

5) HOW THE COMMUNITY WILL BE INFORMED OF THIS PLAN

Council will advise residents of the contents of the plan and its contents by:

- Making a copy of the plan available for public viewing free of charge in Council's libraries and main office at 1 Benerembah Street, Griffith, during office hours
- Placing a copy of the plan on the Council website at www.griffith.com
- Placing a notice in Area News
- Placing a notice in the NSW Government Gazette
- Including a leaflet in the annual rates notice advising residents of the plan and where they can view a copy of it.

6) FUTURE REVIEWS OF THE PLAN

The notification plan will be reviewed every 5 years. The review will include:

- A report on progress of implementing the plan
- Placing a plan on public exhibition, with any proposed changes and calling for public submissions
- In the light of public submissions, making recommendations for alterations (if applicable) to the plan.

7) CONTACT DETAILS

Anyone wishing to contact Council to discuss the notification plan or to obtain details of specific details of pesticide applications in public places should contact:

Anthony Berry Project Officer/Noxious Weeds Inspector Mobile 0428 629 456
